Top reasons to earn Autodesk Certification

Get ahead. Stay ahead. Certify now.

▸ Gain industry recognition for your skill set

Set yourself apart and receive industry recognition for your proven expertise with Autodesk® software. Autodesk Certification is a validation that you have the knowledge and skills necessary to effectively meet the needs of your company.

▸ Demonstrate your expertise in the latest Autodesk technology

Autodesk continually improves its software offerings; show your school or employer that you are ahead of the curve by earning certification on the most recent release of the software.

▸ Improve your performance and add value to your company

Preparing for certification helps improve your performance by strengthening your existing skills and developing new skills through your study of the exam objectives. Add value to your company by focusing on the skills, projects, and assignments that are important to your employer and your industry.

▸ Gain confidence and peer recognition

Certification is a step toward defining yourself beyond a job description or academic degree while gaining a sense of personal satisfaction. Earning certification can bring prestige and recognition from your peers.

▸ Earn a portable credential for job retention and mobility

Certification can give you an advantage when being considered for a promotion or other career opportunities. Certification clearly identifies you as an employee who is committed to your job and the industry. And because Autodesk Certification is offered around the world, your credential is portable.

▸ Become part of an elite team of professionals

Not everyone can meet the rigorous requirements of Autodesk Certification. Become a member of the exclusive club of professionals who met program requirements through study and commitment. When you earn Autodesk Certification, you receive an official Autodesk certificate, Autodesk logo, and a listing in Autodesk's database of certified professionals around the world.

▸ Align with an industry leader

You will be certified on software used by more than 10 million professionals in 185 countries. Autodesk products help save time and money, enable effective collaboration, and change the way ideas are realized. A world leader in 3D design, engineering, and entertainment software, Autodesk is helping design professionals transform challenges into opportunities, design in better ways, and gain competitive advantage.

▸ Digital Credential

Digital credential provide user the ability to showcase their competency. Employer easily evaluate and validate the qualification of applicant
